On May 11 The Utah-Idaho Sugar ing the retailers to raise their price at the price and decided to withdraw its stock from the market. Situation Delicate

The position was exceedingly delicate, officials of the company said, because if they entered the market at the new price set by the Utah-Idaho people they would run the risk of being prosecuted for profiteering, while if they withdrew altogether they would stand the risk of being charged as hoarders.

It has also been widely known in

this community that some individuals have reaped large profits through buying sugar here in small quantities from the retailers and shipping it to eastern market for high prices. It is said that a merchant here has shipped \$25,000 worth of sugar to the Chicago market buying it at prices ranging from \$11.90 to \$13.73 and selling in Chica-From \$18 to \$20 per hundred pounds.

#### The U. S. Marine Corps Turns Out "Two-Fisted" Chaps Who Can Use Their Heads; Gives Plenty of Travel, Adventure and Excitement.

Corporal, what are your ribbons for?

Tell me what each of 'em means. One I got in the Spanish War, And one in the Philippines. One I got in the Boxer brush For makin' the Chinks be good.

And one for helpin' to block the Boche In bloody old Belleau Wood.

Corporal, if I should join your corps,
O what would it do for me? You'd learn "to range this wide world o'er" By sky and by earth and sea—

o be at home in lands that lie Where the East and West Worlds meet; To front the best man, eye to eye

And stand on your own two feet. O Corporal, tell me, straight, what kind Of a man the Marine Corps

makes? The sort of chap you're glad to find At your side when a rough house breaks-The sort of a chap who can crack

a joke And laugh when the sky looks black, The kind who'll share his last lone

smoke give you the shirt off his back.

Have you ever seen a Marine swinging by, and envied him his carefree air, the breadth of the shoulders and the depth of the chest under his well-diting uniform? Is it any wonder the girls have a soft spot in their hearts for these "soldiers of the sea"?

That Marine didn't just happen to be the husky lad he is. He is merely a walking example of what the Marine Corps can do for the ordinarily healthy man. May-be when he came into the service he was a little stoop shouldered, didn't have much "pep." Maybe he was working at a job he didn't care for, didn't have anybody to "pal around with."

The Marine Corps is a body of men, carefully trained to use both hands, both feet and their heads. They are the sort of men who can take Vera Cruz or form a guard of honor for the Prince of Wales, and do both jobs shipshape. They are blood brothers to the French Foreign Legion, the Pennsylvania State Constabulary, the Canadian Mounted Police and the Texas Angers. They are princes of good fellows, and they're wildcats when No man does his best work un-less he likes his job. And no man can do good work without plenty of recreation. It is upon these two principles that Marine Corps training is based.

The Marine must be something of a sailor and everything of a soidier. So he is always learning something new and intensely interesting. In addition to taking on quite a bit of seamanship, he learns to hike like an infantryman, ride like a cavalryman and handle guns like an artilleryman.

guns like an artilleryman. He knows something of wireless telegraphy and mechanics. In fact, when he comes out of the Marine Corps there are all sorts of big-paying civilian jobs that are weiting for

that are waiting for a man who can do so many different kinds of things and do them well.

To keep a man fit there is nothing like athletic sports, and all Marines are encouraged to go in for boxing, football, baseball and swimming. Competent coaches and trainers are provided and every fa-cility for a man to indulge in the form of sport that most appeals to

### Good Fellowship of the Corps

A life of travel, adventure and outdoor work would naturally atoutdoor work would naturally at-tract the man who has the mak-ings of a "good fellow" in him. And nowhere do you find more "good fellows" than in the Marine Corps. If ever you have seen a bunch of Marines in their off hours in barracks, or out for a time in any of our large cities, or sightseeing in foreign ports there sightseeing in foreign ports, there is no need to tell you anything about that side of a Marine's exist-

And as for his chances of seeing the world—there is hardly a coun-try on earth where Marines are not stationed at present. They are in Haiti and the Philippines. They are in London, Paris and in China. No big warship sets sail for foreign ports without a detachment of Marines aboard.

Any healthy young man who would like to learn a well-paying trade, and at the same time build himself up physically and see the world, should investigate the U. S. Marine Corps. Don't hesitate to call at the Marine Recruiting Office. You will not be urged to enlist, but you WILL be told THE TRUTH about the service. Send for booklet.

There was never a min free of pain in my arms and limbs and it was next to impossible for me to get any sleep. My hands and feet swelled terribly and became stiff and were drawn all out of shape, big knots formed in the joints and I could not wear my shoes and had to carry one of my arms in a sling all the time. I had great difficulty in feeding myself and often couldn't walk a step, not even on crutches, and for months couldn't do any of my housework My stomach also was in terrible condition. I had a very poor appetite and what little I did manage to force down would sour and ferment and gas would form and press against my heart so badly I would have great difficulty in breathing. I had the worst sort of nervous and dizzy spells at times, when I would have to catch hold of something or sit down to keep from falling. I lost weight until I was little more than a frame and was dreadfully weak. I was in such bad condition no one thought I could possibly live. I had reached the point where I would have welcomed death, as after trying every kind of treatment and medicine I could hear of without get ting any relief, I had given up hope of ever being well again.

After I had taken only two bottles my improvement was simply wonderful and it was almost like bringing me back from the grave, for I have no idea I could possibly have lived more than another month, if that long. I have no pains of any sort, the swelling has entirely gone from my hands and feet and I am again able to wear my shoes and to do all my own housework. I have a fine appetite and everything I eat agrees with me perfectly. The fact is, I am feeling better in every way than I have in years, and I owe it all to Tanlac, and I am so thankful for what it has done for me I expect to praise it as long as I live."

Try red lips, Resort to paint and powder are totally unnecessary and besides that, are harmful. Three-grain hypo-nuclane tablets, if used regularly for several months, seem to create a greatly added number of millions to the red and white corpuscies of the blood, and not only improve the color, but add increased flesh to the thin and frail body. These tablets promote assimilation, absorption and disgestion, and this splendid aid to nature's forces transforms the complexion and figure. They are prescribed by physicians, but being of a perfectly harmless character, self-administration is being followed by many, who obtain them direct from any well stocked apothecary shop—Advertisement.
